Joe Ewalt Honored.

THE election of Joe H. Ewalt as one of the Grand Officers at the Grand Commandery of Knights Templar at Cynthiana last week is gratifying to his many friends. While he was elected from the Cynthiana Commandery, he is a citizen of Bourbon and a native son. He was elected by a majority which attested his popularity, receiving 119 out of 130 votes. This was the only office in which there is any contest made as it is almost universal rule to advance each officer one step, and as this is the starting point every subordinate command wants the honor. THE NEWS joins a host of friends in wishing Sir Knight Ewalt much success.

Democrats Drawing Salary.

Though he has been Governor de facto and de jure since the death of Gov. Goebel, on February 3, neither Gov. Beckham nor any of his appointees drew their salaries till after the decision of the Supreme Court removing every shadow of doubt as to their title. As a result, the Governor and several of those under him received a good round sum as back pay when they presented warrants to the Treasurer for the first time. In this condition, it should be stated that the minor State officials and clerks in the various departments have not drawn a cent of salaries, and will not until the litigation over their places is finally settled in their favor.

Weekly Crop Bulletin

The weekly crop bulletin reports the drouth temporarily relieved by showers. Wheat has been injured in some localities very seriously by the Hessian fly. Just how extensive this damage will be can not be determined at present; it is severe enough, however, to lower the yield of the State several points; some fields that looked very promising two weeks ago are practically ruined. It is believed that the damages by the fly does not cover a large area. The drouth has also done considerable damage to the wheat crop in some localities, causing it to head too low.

Corn is late, but so far is doing well. The cut worms have attacked some fields, but this injury is not extensive.

Tobacco plants are rather late, but in most localities are ready to set, and during the showery weather the latter part of the week a great deal was set.

Fruit continues to do well and a good crop of nearly all kinds is probable. Potatoes and garden vegetables are late but in good condition. Oats and clover are backward and generally in an unsatisfactory condition. Meadows and pastures were needing rain badly, but will improve rapidly now. Hemp has not come up well. Farm work is well advanced.

The Census and Persons Away From Home During June.

The count of the people in the United States will begin in all parts of the country June 1, and end in the cities two weeks later and in the rest of the country before the close of the month. The people are to be counted at their places of residence, but as many persons and families will be away from their homes during June there is some danger that such persons will not be counted. If they are not counted, the locality in which they live will be misrepresented to that extent, and in some cases this misrepresentation in Congress of the State from which they come. Local pride and State pride, therefore, should influence all such absentees to take reasonable precautions against being omitted from enumeration in their places of residence. Such omissions are most likely to occur in the larger cities where families close their homes and go elsewhere for the Summer. The occurrence of the Paris Exposition this year is likely to increase the number absent from this country.

In all cases of contemplated absence the head of the family is requested by the Census Office to communicate with the supervisor of the district in which he lives. He is also requested to leave information regarding his answers to the questions which are to be asked with some responsible neighbor who will agree to see that it reaches the enumerator on his rounds. Such information might better be left as a memorandum in writing, as in that case it is less likely to be overlooked. The questions to which answers are desired apply primarily to the population, but also to all farms and manufacturing establishments. They are being published from time to time in the press of the country.

By taking this trouble the absent citizen will do justice to his locality and to his State, and materially aid the Census Office in the performance of its duties.

The census schedule will include inquiries about the age, color or race, date of birth, conjugal condition, number of years married, place of birth, year of immigration to the United States, naturalization, occupation, number of months not employed, school attendance and ability to read or write of all persons to whom these questions are applicable. In addition, inquiries will be made about the ownership of homes and farm, farm acreage, value and quantity of farm products, amount of livestock, etc.

ELD. J. S. SWEENEY yesterday sent for Democratic Auditor Coulter and notified him that he was ready to turn the State records of the Auditor's office over to him without waiting for action by the Court of Appeals. PARKER & JAMES.

If you cannot read this small print at a distance of 14 inches your eyesight is falling and should have immediate attention:

Imperial spectacles and eyeglasses have perfect lenses, always perfectly centered and made of purest material, set in frames of the highest elasticity and consequently of great durability, united with the utmost lightness and elegance. When both frames and lenses are scientifically fitted by Dr. C. H. Bowen's system they always give satisfaction for they are perfect. Never buy cheap spectacles, nor of men who do not know how to fit them. You will get poorly adjusted spectacles, or poor, imperfect lenses, and are better off without any glasses than with either of these defects. Buy Imperial spectacles of a reliable, skillful dealer, and they will last longer without change and be cheapest in the end.

We have engaged the services of Dr. C. H. Bowen who will visit our store on the second and last Thursdays of each month and invite all to call and have their eyes examined, for which there is no charge. Satisfaction guaranteed or money refunded.

Next visit—Thursday, May 31, 1900. Hello, 170.
